**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of claims 1-13 in the reply filed on April 21, 2005 is acknowledged. Applicant's traversal is found persuasive, therefore, the restriction in the last office action is withdrawn. However, upon further consideration, a new restriction is required as follows.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-35, drawn to a method of forming a multi-domain for aligning liquid crystal and manufacturing a liquid crystal device comprising scanning an alignment film with an atomic beam, classified in class 204, subclass 157.15 and class 349, subclass 124.
- II. Claims 36-45, drawn to a liquid crystal display device, classified in class 349, subclass 128.
- III. Claims 46-57, drawn to a liquid crystal alignment apparatus comprising an atomic beam generator and an atomic beam blocking unit, classified in class 359, subclass 205.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and/or Group III, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2871

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
